Golden Journey

The new éternité collection takes you into a world full of cultural depth and visual expressiveness. Inspired by the lush diversity of Africa. Natural colours in all shades form a powerful base, interspersed with sunny accents in golden yellow, copper and sunset red, reflecting the unique landscape of the continent.

Immerse yourself in a world full of harmony, warmth and elegance that offers you many individual design options!

Abstract geometry

Limited to simple shapes and a strict arrangement of the elements, a spectacular, three-dimensional effect is created in combination with the reduced colour scheme. The use of different yarns creates a feel with an unmistakably hand-crafted character.

KIUTU

A modern interior scene featuring a dark wood side table, a glass pendant light, and a patterned cushion against a textured wall. The scene is set in a corner with a large window on the left showing greenery outside. The wall is composed of vertical panels with different textures and colors, including a light green textured panel and a dark wood panel. The floor is made of dark wood planks. A green textured rug is visible at the bottom of the frame.

TAJI

Light and shadow

The artistic design was inspired by the jewellery and paintings of African tribal chiefs. The generous, transparent and dense areas create an effective interplay of light and shadow at the window, creating an exciting look that is both modern and timeless.
