SAUM & VIEBAHN

LOOKBOOK 2026

## Less is more

The new 2026 Collection from Saum & Viebahn celebrates the beauty of simplicity. Understated yet expressive, the designs unfold in a timeless elegance that never feels intrusive.

Natural textures in light, earthy colours define the palette, while high-quality fibres such as linen and cotton take centre stage. A touch of glamour completes the collection: softly flowing fabrics with a silk-like appearance and sophisticated shiny yarns that subtly catch the light and give rooms a special atmosphere.
